SENSORY MAP

For finding less-crowded, quiet spaces and relaxing areas
Welcome to the Art Institute of Chicago

We are committed to making our programs and services accessible to everyone. This map can help you find sensory-friendly spaces in the museum that are less brightly lit, quieter, and less crowded.

Please keep in mind that some spaces in the museum are dedicated to temporary exhibitions where the nature of the space might change.
The RLC is open Thursday–Monday, 11:00–3:00, as well as select additional dates. Visit artic.edu for the most up-to-date schedule.
Often uncrowded and quiet
Can be crowded and noisy
